

## ABSORBENTS

We carry a wide array of absorbent products — from pads & rolls, to booms, socks & more. Available in oil only, universal or hazmat grade to meet your specific application needs.

### PADS

Highly effective for absorbing leaks, drips, & spills. These pads are ideal for any indoor or out application. Available in oil only, universal, or hazmat grade to meet your needs.

### SOCKS

Essential when keeping spills, messes & leaks contained. All socks are filled with absorbent materials best suited for soaking up water, solvent, oil, coolants & more!

### ROLLS

Convenient & perforated for quick & easy tearing with little to no waste! Try layering to create separate & customized absorbent pads that are tailored to your spill needs.

### BOOMS

A favored go-to for fast & efficient spill response! By using boom connectors, you can create containment systems that are big enough to handle spills of almost any size.

## SPILL KITS

Our spill kits are designed to handle any spill response need — whether it be oil only, absorbent, or hazmat-based. Dependent on your company's unique needs, decide between pre-packed and custom-filled kits. Every spill kit is outfitted to provide the necessities required to handle your individual spill response needs. These convenient, ready-to-use kits are suitable for any environment, large or small.
